

# TECHNICAL INFORMATION SHEET

## SPRINGCLEAN®

Code No. 06076

### INTRODUCTION

The Premiere range of high quality, extremely effective alkaline cleaners designed for the general cleaning and degreasing of all hard surfaces and most floors. Effective both in hard or soft water areas and in warm or cold solutions, these products contain no abrasive materials which might leave behind unsightly or harmful deposits.

First class results can only be achieved using the correct equipment and products within the framework of a regular cleaning programme. This product group forms a vital and integral part of Premiere's comprehensive range of environmentally friendly chemicals. Users in all sectors of the cleaning industry may select with confidence those products with precisely the right characteristics for the tasks they have to undertake.

In case of difficulty in making the correct choice or for further information on Premiere's cleaning and maintenance chemicals, equipment and machines, contact the local Premiere Representative or Head Office in Cheltenham.

### SPRINGCLEAN

A mildly alkaline, bactericidal, non-abrasive multi-purpose cleaner using the latest electrostatic repulsion to repel dirt from redeposition. A viscous product, containing a fresh orange perfume, which has excellent vertical surface adhesion, to maximise cleaning efficiency. Suitable for cleaning plastic, enamel, laminate, ceramic, stainless steel, chrome, glass and paintwork. Ideally suitable for routine maintenance of bathroom, washroom, toilet and shower areas as it has excellent performance on all soil, in particular scum, oil and body fats. **Springclean** is a non-scratch, ammonia and solvent free formulation offering excellent limescum removal being based upon effective water softener and mild acid presence. It also offers excellent deodorant properties with its high orange fragrance.

In formulating **Springclean**, as withall Premiere products, care has been taken to consider the environmental effects of the formulation and hence all components are Readily Biodegradable. Similarly user hazard has also been given equal consideration and all components are non-COSHH, EH40 regulated and no hazard orange box is required.

The pH of the concentrate under typical analysis is 10.0.

### DIRECTIONS

Always wear appropriate protective clothing and read product label and material safety data sheet before use.

### BACTERICIDAL DATA

Springclean has been submitted to independent microbiological testing in accordance with BS.EN.1276:1997 and passes at a dilution of 1:50 with a 5 minute contact time.

### 1. CLEANING TECHNIQUES BY HAND

Always use the minimum quantity of product when carrying out any cleaning tasks. For spot cleaning and the removal of grease and dirt from heavily soiled areas in toilets and washrooms apply neat with a damp cloth or sponge. Rinse then wipe with a dry cloth.

**DO NOT USE ON CARPETS, FABRICS, CLOTH OR LEATHER UPHOLSTERY AND POLISHED FURNITURE.**

**1.1 Spray Cleaning:** Using a trigger spray apply diluted product onto cloth or sponge and wipe soiled surface clean. Wipe dry with clean cloth if necessary.

**1.2 Washing:** Apply diluted product with cloth or sponge and agitate to loosen dirt. Wipe off solution, rinse with clean cloth and fresh water then wipe dry.

**1.3 Scrubbing:** Pre-soak the articles or surface in the cleaning solution, allowing sufficient time for the chemicals to break down dirt and soilage. Hand scrub with a suitable nylon hand pad or scrubbing brush until clean. Wipe off cleaning solution and rinse thoroughly with fresh water and clean cloth. On completion wipe dry.

### APPLICATION

CLEANING TASK	RECOMMENDED DILUTION
<b>1.1 SPRAY CLEANING (BY HAND)</b>	<b>1:25</b>
<b>1.2 WASHING</b>	<b>1:25</b>
<b>1.3 SCRUBBING</b>	<b>1:25</b>
<b>SPOT CLEANING, BODY FATS AND HEAVY SOIL</b>	<b>NEAT</b>

ALWAYS conduct a trial area with your chosen dilution to establish results.

### MIXING THE REQUIRED SOLUTION

1:25 1 PART PRODUCT TO 25 PARTS OF WATER			
	0.5 LITRE TRIGGER SPRAY	5 LITRE BUCKET	50 LITRE BUCKET
PRECISE AMOUNT OF PRODUCT	20 ml	200 ml	400 ml
MEASURING JUG	MEASURE PRECISE AMOUNT AS INDICATED ABOVE		
PUMP DISPENSER	1	8	16
CAP OR BALL	1	10	

## TRAINING ACADEMY

The Technical Staff in the Training Academy can ensure that the correct equipment and methods are used and our consultants can provide on-site training and advice. Standard two day training courses are held regularly in Cheltenham, and tailor-made courses can be arranged if necessary.

## HEALTH AND SAFETY INFORMATION

Appropriate Health and Safety Information is detailed on the individual product label or relevant material safety data sheet.

Urgent professional advice regarding First Aid may be obtained by contacting the nearest regional centre of the National Poisons Information / Service (NPIS), where all products are registered.
